

Community Impact Foundation

Portfolio Impact (as at 30 June 2019)

Below is provided the portfolio impact of the *Community Impact Foundation* against our Impact Spectrum for the period ended 30 June 2019. Our Impact Spectrum categorises each investment as one of four types of impact - avoiding harm (A), benefit to people and planet (B), contribute to solutions (C) and harm (H). For those investments categorised as type C, which we reserve for investments where impact is intentional and measurable, we have detailed the impact theme and primary-related United Nations Sustainable Development Goal (SDG) to which they contribute.
